

CASE STUDY: DATA PROTECTION COMPLIANCE AND ASEND

A highly specialised SEND-focused consulting, training and recruitment business established and run by SEND experts with long experience of working in schools, charities and local authorities. Our team of experts enable schools to create better provision for their SEND pupils and ensure progress. We do SEND, and only SEND.

ASEND believes in what it does, which is why we have such a highly qualified, experienced and committed team. No challenge is too big; no request is too small. Whether you need an assessment of one child, an audit of your SEND provision or to find great SEND staff, we will provide what you need.

“James was unbelievably helpful and went way beyond our expectations. He was knowledgeable, thoughtful and prompt and, best of all, made everything seem clear and straightforward”.

Barbara Ball, Managing Director, **ASEND**, London,
www.asend.co.uk
