

CASE STUDY: DATA PROTECTION COMPLIANCE AND HTL SUPPORT

HTL Support is one of London's leading IT support company and Information Technology service providers, combining highly skilled IT engineers with efficient operating systems and 'white glove' IT support. We deliver tailored IT support solutions and IT outsourcing services across a broad range of technology sectors and maintain partnerships with many of the world's leading manufacturers including Microsoft, Avaya, and Cisco.

At HTL Support customer service and support are at the core of our business. Our clients have found that our flexible IT support solutions provide them with the most cost effective IT support service available in London.

Services provided to HTL Support:

- *Completion of an information inventory and data mapping;*
- *Development of a Privacy Notice;*
- *Development of training and awareness documentation;*
- *Review of GDPR compliance.*

“Very professional, informative and helpful service. The service provided by selufen helped to solve a potential issue for us.

We have been happy to refer this solution to our clients, suppliers and partners”.

Tim King, Sales Director, **HTL Support**, London, www.htl.london
